

## Call for Papers: HPP *Photovoice* Special Issue

### *Photovoice: Past and Future Directions*

Papers Accepted June 1, 2020 – January 31, 2021

Anticipated Publication Date January 2022

*Health Promotion Practice* seeks to curate a body of salient papers that explore the current state and future directions of photovoice. Of particular interest are papers that demonstrate the use of photovoice as a vehicle for illuminating issues of concern, promoting health equity, advocating for social justice, and advancing efforts to positively influence policy, systems, and/or environments.

The specific aims of the special Issue are to:

- Contribute to the ongoing development of the photovoice method.
- Showcase photovoice projects that engage in illuminating issues of concern, promoting health equity, advocating for social justice, examining power relationships, and advancing efforts to positively influence policy, systems, and/or environments.
- Celebrate HPP's 20+ year commitment to photovoice scholarship.

HPP's editorial board welcomes submissions of evidence-based and/or conceptually grounded scholarship about photovoice in the following areas:

- **History and key foundational elements** – Overview or theoretical pieces that challenge our thinking and expand the method's horizons.
- **Research frontiers** – Examination of challenges that need to be addressed, growth areas for the method, and unique contributions of the method within different contexts.
- **Exemplars** – Applications of the photovoice method.

#### Submission Requirements

HPP will accept manuscripts in response to this call between June 1, 2020 and January 31, 2021, with an early expedited review for papers submitted by September 1, 2020. Please follow the journal's submission guidelines (<http://bit.ly/2RvhSGG>), noting in the cover letter that you are responding to the Photovoice Special Issue Call for Papers. HPP welcomes submissions in several formats as per the HPP Guidelines for Prospective Authors: Full-length original articles, longer implementation articles, review articles, research briefs, and reflective commentaries. All submitted manuscripts will undergo standard peer review by the HPP editors and peer referees, as defined by HPP policy. Questions about manuscript submission can be directed to Editorial Manager Jeanine Robitaille at [jrobitaille@sophe.org](mailto:jrobitaille@sophe.org).

This call will yield papers that will be published in HPP online and in print in January 2022. Supporting material, including photographs, project guides, and exhibition projects will be linked to the papers.

You can learn more about Health Promotion Practice at <https://journals.sagepub.com/home/hpp> or follow us on Twitter @TheHPPJournal.

For questions about the Special Issue, please contact Guest Co-Editors Robert Strack ([rstrack@uncg.edu](mailto:rstrack@uncg.edu)) or Robin Evans-Agnew ([robagnew@uw.edu](mailto:robagnew@uw.edu)).

## **ABOUT THE JOURNAL**

Through its publications, the Society for Public Health Education (SOPHE) explores social and behavioral change as they affect health status and quality of life. *Health Promotion Practice* is a forum for program- and policy-oriented research, application of conceptual frameworks, and evaluation of evidence-based interventions that advance the art and science of health promotion and disease prevention. Unique in its practice focus and committed to advancing the knowledge base of the field, the journal provides commentary, literature reviews, and practice notes, as well as short and longer articles that address strategies across the social ecological model and offer promising practices that center equity, culture, and sustainability for community health and wellbeing. SOPHE publications are essential resources for behavioral scientists, community organizers, government agencies, health care educators, health care administrators, nurses, physicians, public health and community planners, social scientists, and social workers. SOPHE publishes journals that are disseminated to more than 2,000 SOPHE members, more than 600 institutions and libraries, and also enjoy widespread exposure through consortia arrangements. A vibrant social media presence brings HPP content to an ever-growing population of readers.

## **INDEXING**

HPP is listed in PubMed's MEDLINE, Clarivate Analytics' Emerging Sources Citation Index (ESCI) and ProQuest's CSA Sociological Abstracts database.

## **ABOUT SOPHE**

The Society for Public Health Education (SOPHE) is a nonprofit professional organization founded in 1950 to provide global leadership to the profession of health education and health promotion and to promote the health of society. SOPHE's 4,000 international and chapter members work in various public and private organizations to advance health education theory and research, develop disease prevention and health promotion programs, and promote public policies conducive to health. For more information visit [www.sophe.org](http://www.sophe.org).
