Stop the spread of Monkeypox in the U.S.

Wash your hands. Or use hand sanitizer.

Know the symptoms
- Rash
- Fever
- Chills

Transmission
Direct human contact:
- Face-to-face
- Skin-to-skin
- Hugging, massaging
- Oral & sexual touches

Contact with objects & fabrics used by person with the virus:
- Clothing
- Bedding
- Towels

The risk to most people is low. But knowledge keeps us healthy!
